

Minster Mechanical Sales, Inc. Line Card

Metal-Fab
www.mtlfab.com

The most complete line of commercial and industrial chimneys for pressurized and condensing appliances, fume exhausts, engine/generators, and factory-built kitchen ventilation and grease duct systems.

Gaylord Industries, Inc
www.gaylordusa.com

Gaylord Industries manufactures a full line of commercial kitchen exhaust hoods, pollution control units and associated equipment custom engineered to meet every design and budget requirement. An ITW company.

PETE'S PLUG
www.petesplug.com

The standard pressure & temperature test plug. Eliminates the need for costly pressure gauges and temperature indicators on line. The only fitting with two self-closing valves. Up to 500 PSIG and 275F. Brass or S.S. 1/8", 1/4", 3/8", 1/2" M.P.T.

Sellers Engineering Co.
www.sellersengineering.com

High-efficiency, low emissions firetube boilers. Hot water, high, low pressure steam, boiler feed systems, water heaters, packaged clean methane system, boiler accessories. Duel fuel. Guaranteed efficiency. To 800 HP.

Marking Services Inc.
www.markserv.com

Pipe valve and equipment identification signs. Free take-offs, guaranteed accuracy. Complies with ASME A13.1 identification of piping systems with regard to color, letter height and marker size.

Superior Radiant Products
www.superiorradiant.com

A full range of gas fired, high and low intensity infrared space heating equipment for the commercial, industrial and agricultural markets. High efficiency. Gas and propane fired.

U.S. Energy Group
www.use-group.com

A web-based Energy Management System that controls and monitors energy. This system guarantees a minimum of 15% savings on fuel consumption, with a ROI of less than two years.

ISP Automation, Inc
www.ispautomation.com

Your one-stop provider of packaged fuel oil pumping and storage systems for emergency stand-by generators and other applications.

Riverside Hydronics
www.riversidehydronics.com

Division of PVI Industries
Condensing, non-condensing, copper-fin, low mass, medium mass, gas and electric boilers and clean steam generators. High efficiency, small footprint. Easy installation. To 2MM BTU.

Western Engineering
www.weben-jarco.com

Formally Weben-Jarco
Makers of high-efficiency water heaters, condensing gas boilers, hot water boilers, and ASME vessels. To 2MM BTU.

AtmosAir
www.atmosair.com

Innovative Bi-Polar ionization purification system designed to solve a wide range of indoor air problems. Over 95% of all pollutants are removed from the breathable air in as little as 30 minutes without increasing energy costs to bring in additional outside air.
